

Difficult Digestion
That is dyspepsia.
It makes life miserable.
Its sufferers eat not because they want to,
but simply because they must.
They know they are irritable and fretful;
but they cannot be otherwise.
They complain of a bad taste in the
mouth, a tenderness at the pit of the stomach,
an uneasy feeling of puffy fullness,
headache, heartburn and what not.
The effective remedy, proved by perma-
nent cures of thousands of severe cases, is
Hood's Sarsaparilla
Hood's Pills are the best cathartic.

THE HERALD.

CANNEL CITY.

Kentucky's Youngest City Growing Rapidly—Lexington Supplies Her Merchants.

H. H. Hager, of the Ohio and Kentucky railroad, was in the city yesterday. He came from Cannel City to purchase supplies. Cannel City is the newest Kentucky town. The promoter is the O. & K. road which is developing the coal fields in that section. The town has been laid out on the "model plan" and is growing rapidly. It has now a population of about 200 people.

The railroad officials are taking a great deal of interest in their "child" and are doing everything to make it one to be proud of. Houses are being built and as soon as these temporary structures are finished attention will be given to the erecting of more pretentious buildings.

The road has opened a section of the Kentucky mountains which, though rich in natural resources, has been off from the rest of the world. The intrusion has been successful and now Cannel City is the base of supply for many counties.

In this connection it may be said that Lexington is the original base, for Cannel City depends on Lexington.

Local wholesale merchants are already feeling the effect of this new place. It is estimated that Lexington sends about 20 car loads of goods to the little mountain town per month.

The mining of cannel coal there is yet in its infancy. The output now is small but new machinery is being installed and when this is finished about thirty cars a day will be mined. This will all come through Lexington, and from here it will be shipped to various points in the United States and quantities will be exported.

Arrangements have been made with foreign firms and the demand for the coal from across the waters exceeds the supply. Cannel City will soon have a postoffice. It has no corporate existence but will be incorporated soon.—Lexington Herald.

Born, to the wife of David Linden of Gillmore creek, on Thursday the 9th inst., a fine large boy and every inch a democrat. This is the first male heir born to this happy couple, and papa wouldn't swap places with Teddy Roosevelt, rough rider and president though he be. That is, and leave the boy out of the deal. Dave had not named him when we saw him last, but he talked like he might call him Spencer Cooper. If he does we will, of course, be as happy as papa himself.

You can pay for THE HERALD in onions, Irish potatoes, spare ribs, &c., so there is no excuse for ignorance.

Repairing Neatly Done

Never thought of such a sign for a medicine did you? Well, it's a good sign for Scott's Emulsion. The body has to be repaired like other things and Scott's Emulsion is the medicine that does it.

These poor bodies wear out from worry, from over-work, from disease. They get thin and weak. Some of the new ones are not well made—and all of the old ones are racked from long usage.

Scott's Emulsion fixes all kinds. It does the work both inside and out. It makes soft bones hard, thin blood red, weak lungs strong, hollow places full. Only the best materials are used in the patching and the patches don't show through the new glow of health.

No one has to wait his turn. You can do it yourself—you and the bottle.

This picture represents the Trade Mark of Scott's Emulsion and is on the wrapper of every bottle. Send for free sample. SCOTT & BOWNE, 409 Pearl St. New York. 50c and \$1. all druggists.

Our young friend and fellow-citizen, Cesar Linden, will please accept the thanks of the editor and his better seven-eighths for two sparerib sides—fresh, fat and fine—and for the nonce THE HERALD household was quite happy and not hungry. This notice was written for last week's paper, but somehow overlooked, and knowing that Cesar would deal gently with us for negligence, we place it to his credit now. He is a wholesouled boy and we are glad to number him as one among our friends.

Bears the Signature of *Dr. J. C. Watson*

Dan Collier, late adjutant general of Kentucky, is a candidate for surveyor of the port of Louisville, and was in Washington last week to see the president about his appointment. He is backed by ex-Gov. Bradley, who was with him, and should he succeed in plucking the plum, it is understood that he must overcome the influence of Yerkes and Deboe, who are for the present incumbent.

"No That Any Good Would Win" should be provided with good health and everyone who would have good health should remember that pure, rich blood is the first requisite. Hood's Sarsaparilla, by giving good blood and good health, has helped many a man to success.

The substitution of a "c" for "s" in a little local ad in our paper last week made a very ludicrous error. But people generally understood it to mean sow instead of cow and if any of our readers know of the whereabouts of the animal and will report to this office or to the subscriber the object will have been attained. You will find it corrected this week.

HOUSEWORK

Too much housework wrecks women's nerves. And the constant care of children, day and night, is often too trying for even a strong woman. A haggard face tells the story of the overworked housewife and mother. Derranged nenses, leucorrhoea and falling of the womb result from overwork. Every housewife needs a remedy to regulate her menses and to keep her sensitive female organs in perfect condition.

WINE OF CARDUI

is doing this for thousands of American women to-day. It cured Mrs. Jones and that is why she writes this frank letter:

Glendene, Ky., Feb. 10, 1901.
I am so glad that your Wine of Cardui is helping me. I am feeling better than I have felt for years. I am doing my own work without any help, and I washed last week and was not one bit tired. That shows that the Wine is doing me good. I am getting fatter and eat heartily. Before I began taking Wine of Cardui, I used to have to lay down five or six times every day, but now I do not think of lying down through the day.

We claim to be the **Lowest Priced Whiskey House.** We really sell whiskey as low as \$1.10 per gallon, and mind you: distilled whiskey—not a decoction of chemicals—but of course it is new and under proof. Our "Mountain Dew" 2 year old whiskey is a liquid joy! It is actually produced by honest far heels in the Mountain Section of N. C., by the old time hand process. Every drop is boiled over open furnace wood fires, in old style copper stills, in exactly the same way as distilled by our grandfathers a century ago. First rate whiskey is sold at \$5 and \$6 per gallon, but is not any better than "Mountain Dew." It is the best in the world and must please every customer or we will buy it back for Gold—and the Peoples National Bank of Winston, N. C., will tell you our guarantee is good. To more fully introduce "Mountain Dew," we offer either three or five gallons (in plain sealed box), at the special price of \$1.95 per gallon, cash with order. Positively no larger amount shipped. On future shipments we will require the usual price, viz: \$2.95 per gal. Express prepaid to all regular customers. We have branch warehouses in Denver, St. Louis, and Cincinnati, but all orders and remittances (in stamps, cash or by check, etc.) as well as requests for confidential price list must be addressed as follows:
